As this constitutes a rather serious allapation, we have investigated the matter with some care. On the basis of a review of Shipart's technical interrogations, an up-to-date ENG check and resent souverations with him, it is evident that while Sabject has indeed been a friend of Sargai Probably that is nothing to indicate that Sabject we ever "introduced into the SM" by PROBLICO or engone also. In fact, Sabject's technical interrogations indicate that he are not time had say SM or Basi party affiliations. So had, of course, profice is no time had say SM or Basi party affiliations. So had, of course, profice is association with Sargain party and the same officers who say have been and probably were either profits or Saxi party members, but this appears to be a far say from the SM association without in Enference. Meditionally, the fact of Sabject's party-jevish background would tend to preclaim any association with the SM or the Smri party. As Sabject is being considered for an overseas assignment, we would appreciate bearing any association Smringly and particularly what his specific SM matter allegally had been.
